CornerStone 100™

8" Segmental Retaining Wall System

Engineered for strength...designed for beauty.

LIBERTYSTONE™
HARDSCAPING SYSTEMS

The Design Advantage

The hollow core, CornerStone 100™ unit is our most popular and versatile retaining wall solution. CornerStone 100™ has been used to create a wide range of attractive, sound and environmentally friendly walls ranging from residential landscaping walls to large commercial projects. CornerStone 100™ offers the perfect combination of strength and aesthetic beauty. Unit shape and size are balanced to provide a natural profile. For value, beauty, durability and ease of construction, your best choice is CornerStone 100™. Tens of millions of square feet of CornerStone 100™ have been successfully installed around the country. Its no surprise that CornerStone 100™ is the segmental retaining wall of choice for projects of all shapes and sizes.

The Installation Advantage

The system uses three components (standard block, cap and corner) ranging from 65 to 75 pounds that interconnect using our patented, mortarless, SecureLug interlock system. No special equipment is required for installation and one person can easily handle these lightweight, hollow core units. CornerStone 100™ has been thoroughly tested for connection and strength in accordance with the design methodology promoted by the National Concrete Masonry Association (NCMA). CornerStone 100™'s SecureLug connection system, combined with gravel infill, provides very high unit to unit shear resistance and excellent unit connection strength to geosynthetics. CornerStone 100™ walls flex with seismic pressures and resist weathering.

The Creative Advantage

Here's your chance to show off your creative side. The options for CornerStone 100™ are endless. The CornerStone 100™ tapered unit, and large hollow core, enable unique design possibilities such as curves, top of wall details, in-wall lighting, green wall options, pillars, inside/outside corners, stairs, and landscaped terraces. Designed to compliment any landscape, the CornerStone 100™ unit is available in Libertystone's broad color pallet that showcases our unique blended colors. For a look that is truly all your own, try mixing several color blends to create your own customized masterpiece. Be sure to reference additional design ideas at www.liberty-stone.net.
